**Warning:** This e-book contains general advice or information only. The information in this e-book is general information only and has been prepared without taking into account your personal objectives, financial situation or needs. You should consider any advice in this e-book in light of your personal objectives, financial situation or needs before acting on it.

It is recommended to seek advice from a qualified professional relevant to your particular needs or interests. (For instance, Tax Advice from a Tax Agent, Financial Advice from a Licensed Financial Adviser and so on and so forth).

Chan & Naylor and its related parties (direct or indirect) disclaim all and any guarantees, undertakings and warranties, expressed or implied, and shall not be liable for any loss or damage whatsoever (including human or computer error, negligent or otherwise, or incidental or consequential loss or damage) arising out of or in connection with any use or reliance on the information or advice in this ebook.

# Tax Insights

## What to consider when tax planning for EOFY?

With the end of the financial year looming, it's time to think about your tax planning options before 30 June hits. We've curated a list of top things to focus on when organising your tax affairs for year-end.

## Business Tax Planning

### The most commonly overlooked deductions

When running a business, the payment of suppliers by the due date is a priority. While paying bills on time is always a primary concern, most businesses are unaware of the tax savings that can result from bringing forward the payment of certain expenses. Let's look at the most overlooked deductions that can accelerate your cashflow by postponing your tax liability.

## 1. Pay Superannuation on time & before June 30

Most businesses have payroll software that enables posting payroll expenses into the general ledger by the click of a button. Employees are paid their net wage, but the superannuation contributions may be left in an unpaid superannuation account until the end of the month or quarter.

While most expenses are eligible for deduction when incurred, superannuation is only deductible when it is paid and received, on time, by a complying superannuation fund.

Superannuation contributions need to be received by the fund by the 28th day of each quarter (with significant penalties for late payment). The June quarter superannuation liability is only due by 28 July and is often not paid before year end. However, by paying the June quarter liability before 30 June the amount is deductible in the year it is paid should the fund receive the amount by 30 June.

## 2. Instant Asset Write Off Thresholds

### Instant asset write-off for eligible businesses

Under IAWO eligible businesses can:

- immediately write off the cost of each asset that costs less than the threshold
- claim a tax deduction for the business portion of the purchase cost in the year the asset is first used or installed ready for use.
- Instant asset write-off can be used for both new and second-hand assets. Some exclusions and limits apply.

The IAWO eligibility criteria and threshold have changed over time. You need to check your business's eligibility and apply the correct threshold amount.

### COVID-19 Changes from 12 March 2020

For the period 12 March 2020 to 30 June 2020, the following IAWO rules apply:

- threshold amount for each asset is \$150,000 (up from \$30,000)
- eligibility has been expanded to cover businesses with an aggregated turnover of less than \$500 million (up from \$50 million).

### Eligibility to use instant asset write-off depends on:

1. your aggregated turnover (the total ordinary income of your business and that of any associated businesses)

2. the date you purchased the asset
3. when the asset was first used or installed ready for use
4. the cost of each asset being less than the threshold.

The criteria have changed over time so make sure you check whether your business is eligible.

From 1 July 2020 the instant asset write-off will only be available for small businesses with an aggregated turnover of less than \$10 million and the threshold will be \$1,000. Businesses with an aggregated turnover of \$500 million or more are not eligible to use IAWO.

## Instant asset write-off thresholds

Eligible Businesses	Date range for when asset first used or installed ready for use	Threshold
Less than \$500 million aggregated turnover	12 March 2020 to 30 June 2020 (see note)	\$150,000
Less than \$50 million aggregated turnover	7:30pm (AEDT) on 2 April 2019 to 11 March 2020	\$30,000
Less than \$10 million aggregated turnover	29 January 2019 to 7:30pm (AEDT) on 2 April 2019	\$25,000

### 3. Write off bad debts before June 30

If you have a non-paying customer and there is a genuine concern regarding recovery of the debt, then some or all of the debt can be deducted in the current tax year provided it is written off before year end and was included as income at an earlier time. It is important to substantiate the reasons behind writing-off the debt prior to year-end. This deduction only applies to businesses that utilise accrual basis for tax calculation purposes.

Keep in mind that you may be entitled to a reduction in GST for the bad debt written-off. If you are registered for GST and have included the forgiven amount in a prior period Business Activity Statement, you are entitled to adjust down the GST payable in the period that you write-off the bad debt.

### 4. Dispose obsolete plant and equipment

Businesses should review their fixed asset registers to ensure that they are not holding plant or equipment that they no longer require due to obsolescence. Even checking for assets that your business no longer holds could save you at tax time.

Depending on the written down value of the assets, a deduction can be claimed

should the asset be 'scrapped' or disposed of prior to year-end.

### 5. Revalue Stock

It may be time to review how your business values stock on hand. Perhaps the value of closing stock used for tax purposes is based on your management accounts that uses the higher of net realisable value or cost. The ATO allows a business to value its closing stock at any of the following values:

- . Replacement value
- . Cost
- . Market selling value

Depending on the stock valuation under these three methods a business can obtain a significant reduction in its tax liability by adopting a method that results in the lowest value.

In certain circumstances, a taxpayer may also be entitled to a deduction for a write-down of obsolete stock where appropriate valuations and measures are taken.

### 6. Commit to staff bonuses before year-end

It is common practice for a business to create a provision for payment of staff bonuses. However, a tax deduction is only

available for staff bonuses to the extent that the business is 'definitively committed' to paying the bonus. Therefore, a business looking to claim a deduction for current year bonuses should keep appropriate documentation to support approval of those bonuses prior to year-end.

## 7. Pre Pay annual charges

Review any of your expenditure that is eligible for a discount if paid for the next year. Not only can you take advantage of this saving but depending on the expenditure it can also result in an immediate tax deduction.

Small businesses are eligible to deduct any prepayment that has a service period of less than 12 months and all businesses can deduct prepayments that are either required under a Government law or cost less than \$1,000.

## 8. Accrual Basis - Tax Calculation

Just because you haven't paid for goods or services until the following tax year, doesn't mean you can't take advantage of the deduction this year. To the extent that services are provided to you before year end even though they are invoiced after year end, and the cost can be reasonably

estimated, the expenditure is deductible in the year in which the service was provided.

## 9. Claim upfront costs - Consumables

If your business holds consumable stocks or spare parts that are to be used within three months after year end, the ATO's view is that businesses can deduct the costs of consumables in the year acquired, as opposed to having to include the amount in closing stock. It can be beneficial for businesses to review their consumables and claim upfront where possible.

## Division 7A Loans

### Company loan to shareholders

If you are a shareholder or a shareholder's associate and you borrowed money from a company for personal use during the 2020 financial year, these loans need to be repaid or placed on a complying loan agreement by the lodgment due date of the company 2020 tax return. If not, there is a risk that the loan will potentially be treated as a deemed unfranked dividend and taxed in the shareholder/shareholder's associate hands.

In respect to existing Division 7A loans, please ensure the minimum annual loan repayment is received by the company prior to 30 June 2020.

## Trusts

### Trust distribution

Ensure you speak to your tax advisor to ensure your trust distribution resolutions are in place by 30 June 2020.

Be aware that if you are planning to distribute to any new beneficiaries (e.g adult children, corporate beneficiaries) for the 2020 year or beyond you need to ensure a Tax File Number (TFN) report has been lodged notifying the ATO of the beneficiaries' TFN before the end of the financial year if not already done. This is to notify the ATO of any new beneficiaries as they have an obligation to provide their TFN to avoid having TFN withholding applied to payments at a hefty rate of 47%.

## **Division 7A Loans – Trust distributing to a company**

When deciding to distribute income from a Trust to a Company during the 2020 financial year to benefit from a lower company tax rate, ensure you have considered Division 7A consequences.

Where a Trust distributes income to a Company, the Unpaid Present Entitlement (UPE) may result in a deemed dividend if the UPE is not repaid by the lodgment due date of the Trust's 2020 Income Tax Return or placed on a complying Division 7A loan agreement or Sub Trust Agreement.

# Tax Checklists

Company/Trust Checklists + SMSF

## BUSINESS | CHECKLIST

### COMPANY / TRUST INCOME TAX RETURN

To assist you with gathering the necessary documents and information required to complete your **Financial Statements and Income Tax Returns**, we now provide you with a tailored checklist for your convenience.

We recommend that this checklist is used as a guide to gather all appropriate documents. Please print and bring along to your appointment with us. Failure to do so may mean we cannot complete your tax return in the most efficient and timely manner.

Documents/Information	Information Required	Not Applicable
Bank and/or loan statement(s) for the period 1 July to 30 June.	<input type="checkbox"/>	<input type="checkbox"/>
If you purchased or disposed of any real estate or shares during the financial year, we will require a copy of the contract, legal fees and settlement statement of all purchases or sales.	<input type="checkbox"/>	<input type="checkbox"/>
Dividend Slips for all shares held during the financial year.	<input type="checkbox"/>	<input type="checkbox"/>
Distribution statements & Annual taxation statements for all shares/managed funds held.	<input type="checkbox"/>	<input type="checkbox"/>
Details of any interest received.	<input type="checkbox"/>	<input type="checkbox"/>
Details of any rental income and/or expenses (including agents report).	<input type="checkbox"/>	<input type="checkbox"/>
